SUMMARY

Full Stack Software Developer with 2+ years of experience contributing to scalable web and mobile applications across fintech and enterprise environments. Proficient in React.js, Next.js, React Native, Python, and Django REST Framework. Delivered 25+ REST API endpoints; improved API response times by ~60% via Redis caching. Experienced with Kafka, API Gateway patterns, Docker, and GCP.

TECHNICAL SKILLS

Frontend: React.js, Next.js, React Native, TypeScript, JavaScript ES6+, Tailwind CSS, Shadcn/UI

Backend: Python, Django, Django REST Framework, RESTful API Design, API Gateway, Apache Kafka

Databases: PostgreSQL, MySQL, CockroachDB

Tools & Cloud: Git, GitHub, Docker, GCP, Firebase, Postman, Figma

Integrations: Google Maps API, Razorpay, WebSockets, Google/Apple Sign-In

Concepts: JWT Auth, RBAC, CI/CD, Agile/Scrum, Microservices, Event-Driven Architecture

PROFESSIONAL EXPERIENCE

Gowdanar Technosoft Pvt Ltd (GTPL) — Bangalore

Software Developer | Jun 2024 – Present

- Built enterprise web and mobile apps using Next.js, React Native, Python, and Django REST Framework across the full SDLC.
- Designed 20+ REST API endpoints for payment (Razorpay), notifications (Firebase), and transaction workflows; secured with JWT and RBAC.
- Applied Redis caching on high-traffic endpoints, reducing API response time by ~60%; designed schemas in PostgreSQL, MySQL, and CockroachDB.
- Containerised services with Docker, contributed to GCP deployments, CI/CD pipelines, and integrated Kafka for async event-driven workflows.

Gowdanar Technosoft Pvt Ltd (GTPL) — Bangalore

Software Developer Intern | Dec 2023 – May 2024

- Contributed to fintech web development using Django and Next.js within a 5-member Agile team.
- Built and tested 10+ RESTful API endpoints; developed responsive React.js UI components ensuring cross-device consistency.
- Debugged APIs via Postman and DevTools; managed code using Git/GitHub for version control and code reviews.

PROJECTS

Fintech Payment & Wallet Platform

Next.js · Django REST Framework · PostgreSQL · Razorpay · Redis

- Full-stack platform handling payment gateway workflows, wallet management, and transaction history with JWT-secured APIs and Redis-optimised performance.
- Implemented API Gateway with caching, rate limiting, and circuit breaker patterns; used Kafka for async inter-service communication.

Cross-Platform Mobile App

React Native · Firebase · WebSockets · Google/Apple Sign-In

- Mobile application with real-time features, push notifications, and social authentication targeting iOS and Android.
- Integrated live tracking and booking workflows using WebSockets and Google Maps API.

Enterprise Admin Dashboard

Next.js · Tailwind CSS · Shadcn/UI · RBAC

- Multi-role internal dashboard with role-based access control integrated with backend microservices over REST APIs.
- Built workflow interfaces for user onboarding, loan processing, document submission, and verification with multi-step form validation.

EDUCATION

B.E. in Electronics & Communication Engineering | 2018 – 2022

Basaveshwar Engineering College, Bagalkot
